Activities of Year 2020

Vocational training for skill development

Vocational Training Programme

Cattle population of India is largest in the world naturally cattle waste, dung, waste product are available in the large quantity. To increase fertility of agriculture land, these waste products can be easily converted into useful products for preparation of waste fertile land. By use of Vermiculture we can increase soil quality. But most of the agriculturists don't have the knowledge of Vermiculture. They need complete technical knowledge of Vermiculture preparation. We are having best facility to train the people for Vermiculture training programme.
